

Conserved and Working Lands (with existing development)

Town of Dummerston, Vt.

March 2017

- Structures
- Parcel boundary
- Public land (state or town)
- The Nature Conservancy property
- Private land with conservation easement
- Parcel enrolled in Use Value Appraisal (2016)

Sources:

- Parcel lines are from GIS data developed by Cartographic Technologies, Inc. (CTI), Brattleboro, Vt., and are current to 2014.
- Data on lands under conservation protection were obtained from WRC mapping, the Town of Dummerston, and Vermont's Protected Lands database (VGIS data layer (PROTECTEDLND)). Data are current to 2016.
- Data on parcels enrolled in the Use Value Appraisal Program (i.e. "current use program") in 2016 were compiled using information from the Dummerston grand list, and a WRC UVA mapping project. Those portions of a parcel excluded from UVA enrollment which are less than about 5 acres are not shown as excluded on this map.
- Structure locations were captured using GPS technology for Vermont's Enhanced 9-1-1 program. Locations have been edited by Windham Regional Commission in 2005, 2009, and 2017 using Vermont digital orthophotos and National Agricultural Imagery Program orthophotos.
